

THE INSTITUTE FOR ESOGETIC COLORPUNCTURE™ & ENERGY EMISSION ANALYSIS™

P.O. Box 2427, Telluride, CO (415) 461-6641
www.colorpunctureusa.com

Dear Friend,

Thank you so much for your interest in Peter Mandel's acu-light Esogetic Colorpuncture and Kirlian Energy Emission Analysis. This brochure will answer many of your questions about how to begin training in this exciting new field. I also encourage you to speak to me personally, to discuss your particular questions and training needs.

The Institute for Esogetic Colorpuncture and Energy Emission Analysis was established with the endorsement of Peter Mandel.

Its purpose is to provide quality training in Esogetic therapies throughout the United States and North America. The Institute offers a variety of training programs around the country, both for laymen and professionals. Upon successful completion of the trainings, practitioners receive certification from the International Mandel Institute in Switzerland.

Based on over 40 years of research and treatment of hundreds of thousands of clients, Peter Mandel has developed a profound understanding of the way in which the subtle vibrations of light and color may be used to heal body, mind and spirit. We hope you will join us in a life-changing journey toward the light.

Akhila / Dr. Rosemary Bourne,
Director

"Light is life. This is not a belief system but something that is confirmed by science. Specifically, light is present in the communication between cells in the body, and disease occurs when this communication is broken, when the cells can no longer speak the same language. {Giving light} has a resonance effect, bringing the cells into the same language again and {supporting the body's healing}"

--Peter Mandel

WHAT IS ESOGETIC COLORPUNCTURE?

Esogetic Colorpuncture is a system of colored acu-light therapy which combines energetic principles of Chinese medicine with modern discoveries about the biophysics of light, and certain spiritual or esogetic principles. This system was developed by Peter Mandel, a German naturopath, acupuncturist, and well-known figure in European natural healing. Mandel has spent the past 40 years researching informative energies and developing related evaluative systems and therapies.

HOW DOES ESOGETIC COLORPUNCTURE WORK?

Esogetic Colorpuncture uses acupuncture points and other body points to transmit light through the body's energetic pathways.

The light restores cellular communication and supports the body's healing process. In an Esogetic Colorpuncture treatment, an acu-light wand with glass tips emitting different frequencies of light (or colors) is applied to points on the skin. The different colors of light transmit different vibrations in a patterned sequence. Each vibrational sequence or treatment will have a specific effect. Particular treatments may help balance and destress the nervous system, detoxify the body, relieve pain, tonify and strengthen specific organs and much more. Clients find Esogetic Colorpuncture to be gentle, non-invasive and relaxing.

WHY DOES ESOGETIC COLORPUNCTURE WORK?

Esogetic Colorpuncture operates from the perspective that our physical illness and pains are important signals of deeper disharmonies in the psyche and spirit that can disturb the healthy communication between cells in the body. Any disharmony must be addressed at these deeper levels if real healing is to occur. Light and color not only restore proper cellular communication; they also have a unique capacity to unlock the connections in the bodymind.

Many Esogetic Colorpuncture treatments powerfully address emotional, mental and spiritual levels, as for example the therapies for prenatal trauma, father/mother balancing, and conflict solution. These treatments can cause the release of old emotional and psychic unconscious material which may be at the root of the energetic imbalances and ill health. Finally, Esogetic Colorpuncture has the effect of activating consciousness and personal insight, for example in treatments like the dream stimulation therapy. By working to restore our connection to our inner wisdom, these therapies seek to support the unfolding of our innate potential as individuals. The deepest healing comes from living our lives in accordance with our truth and our potential.

WHAT IS ESOGETICS™?

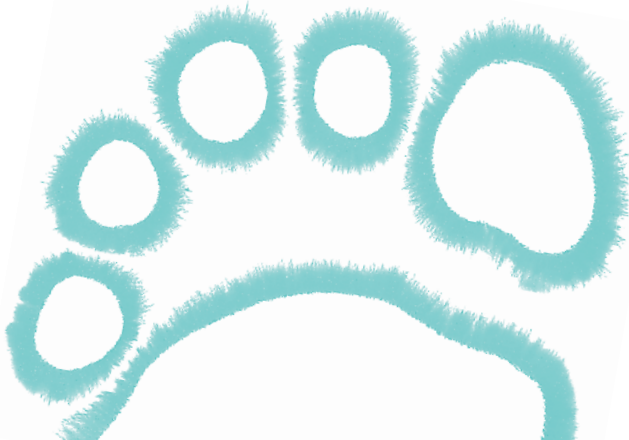

Esogetics is a term coined by Peter Mandel to describe his healing methods and paradigm. It is a combination of the words 'esoteric' and 'energetic'. Mandel's esogetic therapies are based on a combined understanding of the certain ancient esoteric principles regarding healing (notably the Hermetic Doctrines) and a knowledge of the energetic systems of the body derived from traditional Chinese medicine and modern biophysics. In a sense, one can say that Esogetics uses the energetic pathways of the body to support the wellness and evolution of the whole person.

WHAT IS KIRLIAN EMISSION ANALYSIS™, AND HOW DOES A COLORPUNCTURE THERAPIST KNOW WHAT TREATMENTS ARE BEST FOR EACH CLIENT?

Esogetic Colorpuncture therapists use Peter Mandel's system of Kirlian Energy Emission Analysis in conjunction with the light treatments. While Esogetic Colorpuncture can certainly be done without kirlian photography, Mandel's Kirlian EEA greatly enhances the precision of this work.

Kirlian photography is a method of photographing the energetic radiation emitted by the body. Over the past 40 years, Mandel has perfected a unique method of identifying energetic imbalance in the photos called Energy Emission Analysis (EEA). In his EEA system, kirlian photos are taken of the fingers and toes. Mandel developed a precise map of the energetic 'meaning' of each finger and toe. He also developed a set of steps or procedures for interpreting the specific energetic phenomena which he cataloged during 40 years of using these photographs in clinical practice. His research was based on painstaking analysis of over 800,000 photographs of clients in his practice, studied in relation to clinical lab test results and the client's response to treatment. The mysteries of a kirlian photo can be easily interpreted using Mandel's guidelines.

In an Esogetic Colorpuncture treatment session, a kirlian photo is taken first, to determine which light treatments would best serve to balance the client's energy system. Particular light treatments are designed to address particular signs in the photos. After the light treatment, another photo is taken to assess the impact of the treatment. The kirlian photos help pinpoint the roots of energetic imbalance and later, show the changes in energetic emission in response to treatment. They are an ideal tool to help you and your client assess the effects of each treatment.

TRY AN ESOGETIC COLORPUNCTURE TREATMENT WITH KIRLIAN ENERGY EMISSION ANALYSIS!

If you are considering training in Esogetic therapies, we strongly recommend that you have at least one treatment of Esogetic Colorpuncture. This experience will give you a deeper understanding of the work and its potential. Akhila offers treatments in San Rafael, CA and Telluride, CO. It also may be possible to arrange a treatment with Akhila before a Certification Training. For a current list of practitioners around the country please see my website: www.colorpunctureusa.com. If you do not see someone in your area, call the Institute for a referral at 415-461-6641.

PROFESSIONAL ESOGETIC COLORPUNCTURE EQUIPMENT

The equipment and products used in Esogetic therapies have been personally developed by Peter Mandel based on extensive clinical research and are designed to meet his precise specifications as to color frequency, intensity, etc. These items include:

Perlux P117 Light Pen: Hand-held tool comes with a set of 7 glass rods each infused with natural dyes of different spectral colors. The rods have focused tips for application to an acu-point and emit the precise frequencies of colored light deemed most effective for Mandel's therapies.

F333 Flat Focus Light Pen: Similar hand-held tool uses flat, colored plastic caps instead of glass rods. Useful for color application to larger areas of the skin; especially suitable for clients to use for home treatments.

PF Combi 450 Light Pen: Combines the P117 glass rod and the F33 flat cap attachments and tools to allow greater flexibility in application of light to acu-points or larger skin surfaces.

Perlux IR950 Infrared Light Pen: Hand-held tool emits infra-red light. Attachments allow for broader or more fine point application.

Perlux Ultraviolet Light Pen: Hand-held tool emits U.V. light.

Esogetic Herb Oil: A patented formula mixture of 24 essential oils used in Mandel's dream zone therapy to activate dreaming. Comes with instruction pamphlet.

Esogetic Sound Therapies: The sound therapies are "translations" of Mandel's color frequency patterns or treatments into tone sequences. Suitable for home use, they are available on CD.

Grey Light and Soul Spirit Color Rod Sets: These sets of additional rods with either shades of grey (3-rod set) or pastel "soul-spirit" color shades (4-rod set) are used for Mandel's newer advanced therapies. Designed to be used with the Perlux P117 light pen.

Induction Therapy Tools: New tools designed for home-use or use by clinical practitioner. Biofeedback methods influence brain wave patterns which support energetic healing of specific health issues such as migraines, insomnia or stress.

Crystal Therapies: Swarovski custom made crystals in various designs.

All equipment, books and supplies developed by Peter Mandel may be ordered through the IEC, USA. Please visit the store on my website www.colorpunctureusa.com or call me on 415.846.3758

How to Train in Esogetic Colorpuncture and Kirlian Energy Emission Analysis:

The following are descriptions of the training programs offered by the Institute. A current schedule of dates for upcoming seminars can be found on my website: www.colorpunctureusa.com or please contact the Institute at 415.846.3758.

INTRODUCTION TO ESOGETIC COLORPUNCTURE - SELF-HEALING WITH COLOR AND LIGHT:

Learn basic theories and self-healing treatments in this 2-day introductory workshop. The workshop includes training in methods for treating hormonal balance, lymph drainage, dream activation, headaches, learning problems, immune strengthening, spinal relaxation, destressing and more. There will be opportunities to give and receive light treatments. This class is open to everyone and is a prerequisite for the Basic Practitioner Certification Course. (Cost: \$285 with early registration)

BASIC COLORPUNCTURE PRACTITIONER CERTIFICATION COURSE:

This is an 23-day course for those interested in becoming professional Esogetic Colorpuncture practitioners. Training is conducted on five long weekends, usually over an 8-9 month period. The curriculum includes a large body of treatments, as well as extensive theoretical information and methods for determining treatment protocols without kirlian photography. Emphasis is placed on clinical application of treatment systems, as well as hands-on practice and personal experience of the therapies. Specific topics include therapies for endocrine, toxic and degenerative energy states, brain and nervous system energetic regulation, meridian therapies, prenatal treatments, male/female balancing, conflict solution therapies, infrared treatments, soul-spirit color and grey light treatments and much more. Specific protocols are provided for a wide range of symptoms including migraines, ear & eye problems, joint pain, depression, allergies, asthma, metabolism, stomach & intestinal disturbances, systemic diseases, etc. Upon successful completion of this training and the accompanying examination, students may receive certification as Esogetic Colorpuncture practitioners from the International Mandel Institute. (Cost: \$3000 with prepayment, \$3200 with payment plan).

ADVANCED ESOGETIC COLORPUNCTURE SEMINARS:

Peter Mandel is a highly prolific healer and is constantly developing new treatment methods. The Institute regularly offers advanced seminars for certified Esogetic Colorpuncture practitioners. Each seminar focuses on specific advanced areas of treatment. Topics include: Transmitter Relays, Ellipse Therapies, Advance Conflict Solution Therapies, Cosmetic Colorpuncture, Pain Therapies, Colorpuncture for Children, Foot Reflex Zone Therapies, Treatments for the Terminally Ill and other recent developments by Mandel. (Cost varies according to length of seminar but most seminars are 4 days long for \$500 each). The Institute also periodically sponsors U.S. seminars with Peter Mandel or his son Marcus Wunderlich.

KIRLIAN ENERGY EMISSION ANALYSIS I, II, & III:

Mandel's EEA system is taught in three seminars -- addressing beginning, intermediate and advanced levels of this work. Each seminar lasts 4 days. Training includes instruction in reading emission states and phenomena, EEA topography, basic and advanced steps in kirlian reading, case studies and interface of specific kirlian signs with specific colorpuncture treatments. Students learn to take photos in conjunction with administering colorpuncture treatments to obtain practical hands-on experience in the use of this remarkable system within a practice. Completion of an Esogetic Colorpuncture introductory class is required for participation in Kirlian EEA seminars. (Cost per seminar: \$500)

PRIVATE TUTORING: On occasion, particularly for students coming from outside the United States, the Institute may be able to provide tutoring for students unable to attend regular classes.

LEARN MORE ABOUT COLOR AND LIGHT THERAPY . . .

The following books and articles are available in English on Esogetic Colorpuncture. Several other books by Mandel may also be ordered only in German. All publications may be ordered through the Institute as shown on the enclosed order form.

Esogetics: The Sense and Nonsense of Sickness & Pain

by Peter Mandel

1993 paperback offers detailed overview of Mandel's unique theories of healing, called "esogetic therapy". Also includes some treatment procedures for self-healing.

Color Me Healing

by Jack Allanach

Entertainingly written new biography of Peter Mandel. This book provides a fascinating insight into Mandel as a healer and a man. Includes numerous case stories and an overview of the Colorpuncture systems. Highly recommended as an introduction to this field.

Light Years Ahead: The Illustrated Guide to Full Spectrum and Colored Light MindBody Healing

Brian Breiling, Ed.

Celestial Arts Publishing release contains chapters written by 16 pioneers in field of light therapy. Includes a chapter by Dr. Rosemary Bourne (a.k.a. Dr. Akhila Dass) and Manohar Croke on Esogetic Colorpuncture. This excellent resource book includes information on light products, manufacturers, clinics and treatment centers, educational facilities, etc.

The American Journal of Acupuncture Vol 24 No. 2&3; Vol 25, No. 2&3; and Vol 27, No 1&2.

These three issues of the AJA contain articles by Manohar Croke and Dr. Rosemary Bourne (a.k.a. Dr. Akhila Dass) on Esogetic Colorpuncture and Kirlian Energy Emission Analysis. The articles include extensive discussions of theory, as well as case studies and summaries of recent evaluative studies.

Children in the Light

This paperback volume contains several simple protocols for treatment of children. The book is written by Fausto Pagnamente a Swiss Pediatrician who has enjoyed a long collaboration with Peter Mandel. Suitable for practitioners and parents.

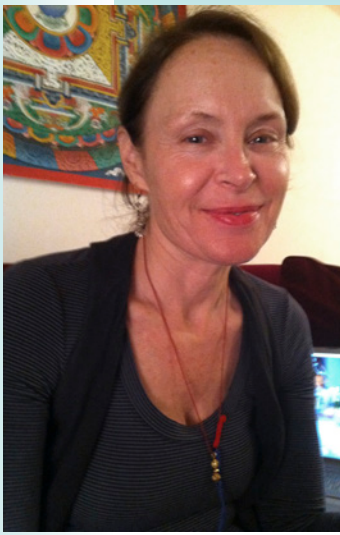

The Compendium of Ophthalmotropic Genetic Therapies

Peter Mandel's latest therapy manual with extensive theoretical background and applications for the treatment of diseases connected with genetic and constitutional tendencies.

An important book for practitioners taking the Certification Training.

ABOUT THE IECEEA STAFF . . .

Akhila/Dr. Rosemary Bourne is dedicated to teaching Peter Mandel's Esogetic healing methods. Having built her own successful Esogetic Colorpuncture and Kirlian EEA practices, she brings extensive clinical experience into her trainings and can offer considerable practical support for future Esogetic therapists.

In her seminars, she creates a supportive learning environment where lectures are combined with extensive hands-on practice, with many demonstrations as well as many opportunities for students to personally experience the transformative power of Esogetic Colorpuncture.

Akhila is certified to teach Esogetic Colorpuncture and Kirlian Energy Emission Analysis by the International Mandel Institute. She began training personally with Peter Mandel over sixteen years ago and continues to study with him regularly to update her skills in this rapidly developing field. Rosemary Akhila Bourne holds a Diploma of Acupuncture and is a Doctor of Oriental Medicine with over 35 years experience and training in the field of holistic healing. In her private practice in San Rafael, CA and Telluride, CO, Akhila combines concepts of acupuncture with Esogetic Colorpuncture. Over the past thirty years Akhila has also studied the meditative arts and incorporates the Diamondlogos system of spiritual therapy and uses this perspective in her own healing work, as well as an understanding of trauma and somatic experience based on the work of Peter Levine.

Akhila founded IEC 22 years ago, at the request of Peter Mandel. Since then, as Institute director, she has been taught hundreds of students nationwide. In her continuing effort to share this information, Akhila has also co-authored and published numerous articles on both Esogetic Colorpuncture and Kirlian Energy Emission Analysis.

"We, who are imprisoned in matter have to bring our 'I' out of matter and darkness and into the light. On the level of the spiritual world, we humans, in our wholeness, are light beings. We must and always will develop towards the Absolute Light, which we call God. In this process, we are accompanied by light on the outside and, if we allow it, by light on the inside."

Peter Mandel, *Esogetics*
